

All Cologne against Racism

On 13th September, 2020 local governments will be elected all over North Rhine-Westphalia. The **AfD (Alternative for Germany)** and its associates will participate again, spreading right-wing propaganda and racist agitation. Therefore we say it loud and say it clear:

NO to right-wing extremism, racism, antisemitism, homo and trans hostility, sexism and discrimination!

YES to diversity, respect and equal rights for all in our city!

Our aim is to prevent the AfD from becoming a member of our city council and of any district administration, if possible. We demand:
No votes for the AfD.

Who are we?

"Kein Veedel für Rassismus" (No Neighbourhood for Racism) is an independent, solidarity-based association of people who stand up to the AfD and other extreme right-wing groups in Cologne. We are a network consisting of different groups in almost all city neighbourhoods. We are impartial and work against the right. Together we stand up against racism - during the election period and beyond that.

What do we want?

We do not want to leave our neighbourhoods to the AfD in the weeks before the local elections. Together with many other people we would like to accompany every information booth of the AfD - if possible - with creative actions. E.g. with a brown bag - i.e. a garbage bag enabling people to dispose of racist propaganda.

What can I do?

Get yourself a "brown bag" (by using a paper bag or a garbage bag), write "brown garbage" on it and put it in your pocket. Watch our twitter account [@forcologne](https://twitter.com/forcologne) (settings: account information/all tweets). If you come across an AfD information booth and have some time, call your friends and/or colleagues, take them along to the information booth and encourage pedestrians to dispose of the AfD racist garbage directly in your paper bag. Take a photo of your action and send it to: kontakt@kvfr.de

Our basic attitude is "to maintain distance" to the AfD members and to take a clear position.
